Professional Experience

AIRBUS

2024/2026 (2 years) : Work-study technician in System/Network Telecommunications in *AIRBUS Defence and Space*.

Responsabilities:

- Assisted in maintaining network and telecommunications equipment
- Installed, cabled, and configured rack-mounted equipment (servers, switches, firewalls) to meet project specifications and ensure system functionality.
- Collaborated with teams to ensure the good management of incidents.

I'm a motivated Networks and Telecommunications student with practical experience in network administration and cybersecurity through my work-study at Airbus Defense and Space. I've developed strong problem-solving skills through real-world scenarios and SAEs (professional simulations). I thrive in dynamic environments and aim to apply my expertise to innovative projects while continuing to grow professionally.

Education

2024 - Present

Bachelor's Degree in Networks and Telecommunications, Specializing in Cybersecurity
IUT de Blagnac (31), France

BUT Cybersecurity, Networks et Telecommunications
Rank 4th out of 60 students
